EXPERIENCE

Freelance Consultant — Chegg India *Oct 2026 — Present · Remote*

- Creating original, high-difficulty computer-science Q&A pairs to train and evaluate AI models; paid per task passing expert review.

Web Design Instructor (Part-time) — ZNIIT *June 2026 — Present · Remote*

- Teaching Networks, HTML, CSS, JavaScript, VS Code + DevTools, responsive layouts and UI/UX basics, Web development, SEO, deployment — every topic with hands-on labs.

Senior Developer — HCLTech (Client: SAP) *Apr 2025 — May 2026 · Bengaluru, India*

- Developed reusable, modular Angular components with reactive forms for the SAP C4C enterprise app, following component-based architecture and Angular best practices.
- Integrated RESTful APIs built on Node.js, enabling efficient frontend–backend communication for enterprise workflows.
- Collaborated with cross-functional teams to debug frontend and API-integration issues, deliver feature enhancements, and optimize performance.
- Participated in Agile/Scrum ceremonies, including sprint planning and code reviews, ensuring quality, maintainable deliverables.

Software Consultant (Angular Developer) — Skillikz Technologies Pvt. Ltd. *May 2022 — Feb 2025 · Noida, India (Remote)*

- Built and maintained scalable Angular 14+ applications using reusable components, reactive forms, RxJS, and TypeScript for enterprise use cases.
- Consumed RESTful APIs built on ASP.NET Core, supporting dynamic content updates within a microservices-based backend architecture.
- Implemented RxJS operators to manage asynchronous data streams, improving reliability of data-driven UI components.
- Optimized application performance through component refactoring and lazy loading, improving overall responsiveness by 25%.

Research Intern — CyPSi Lab, University of Delhi *Nov 2021 — Feb 2022 · New Delhi, India*

- Applied ANN, KNN and MLP classifiers on a PCOS dataset; 95.55% accuracy on 8 of 42 features via feature selection (MLP).

PROJECTS

BerthBuddy — Seat-swap PWA for Indian Railways *Angular 20 · REST API integration*

Live demo · Code

- Built the complete Angular frontend: journey setup, seat groups, swap board with match scores, PNR-anchored confirmation, QR handoff, bilingual EN/HI UI, offline service worker.
- Integrated REST APIs for auth (JWT login), journeys and swaps; Jasmine specs + Playwright browser tests; demo deployed on GitHub Pages.
- **Info-Hub (Open Source) · Angular 15 / Firebase · Jul 2024 – Present** — platform presenting tech concepts through reusable components.
- **Nutri Explore · Angular + REST API · Feb–Jun 2024** — nutrition-data app (calories, micronutrients, vitamins, minerals). Live: ratingrishu.github.io/NutriBytes/
- **Housing Location Application · Angular · Mar–Apr 2024** — rental-search app with reusable components and reactive forms. Code: github.com/ahmad-ausaf0/homes-app
- **Angular Courses Application · Angular + REST API · Jul–Aug 2023** — course cards with level tags, updated via REST API. Code: github.com/ahmad-ausaf0/angular-course
